

International Ministries of Hope, Inc.

Bringing the Water of Life to La Gonâve, Haiti

Summer & Fall 2011

We have been busily proclaiming the good news of Jesus Christ and the message is being illustrated in many tangible ways. The year is also most over and many milestones have been reached through IMOH. Two out of three young people from our organization have graduated from school. Elly finished his two years of Bible studies and Miss Roselyne finished her three years of nursing school. Praise the Lord and congratulation to these two young people.

Teams came during the summer months and shared Jesus through vacation Bible School. Over 575 children learned about how Jesus loves them and about His sacrifice for them. The children had fun learning about salvation through bible story time, crafts, music and soccer camp.

Teams evangelized several villages and many people accepted Jesus as their Savior. Four new church plants were started as a result. We celebrated in weddings and Baptisms.

Fall is here. The time has finally happened Mapou's school is out from under tarps! The construction of the school roof started and we completed it just in time for school to open its door in October. Big smiles entered the classroom in greeting the new teacher and 94 students.

It is tremendously encouraging and truly rewarding to see the faithfulness of our God evidenced as the vision becomes reality. The prayers and the faithful support of God's people have made it possible for many boys and girls to be in school.

The school's outhouse is being built and we are anxiously waiting.

As an added bonus, a talented artist started painting murals on the classroom walls.

Short term Missions Teams can really have a huge impact and make a tremendous difference as they unselfishly share their experience and training to help those in need. A medical team came and was able to treat literally hundreds of people from all over the island. The school children received their physicals and many others with different illnesses received competent professional attention.

The church roof was completed. Now we are in the process of building a large cistern for the community.

Bi-weekly Bible studies are a very important part of this ministry as many people have come to know the Lord Jesus Christ as their personal Savior. They are being disciplined in order to help them to grow in their new life in Jesus Christ.

Please pray for **International Ministries of Hope**. We work hard to help produce and develop good leaders who will in turn be able to lead their own people to Christ. The ministry is abundantly fruitful for which we truly praise the Lord.

We are deeply grateful to you and to the Lord for your faithful prayers and financial support as we continue to serve Him in this needy mission field.

In the midst of many challenging and sometimes very difficult circumstances, it is a great encouragement to us to know that you are really standing with us and trusting God with us to bring a rich harvest of souls.
